

Mercury Eater

SAFETY SPILL KIT™

- A multi use self-contained safety spill kit containing everything needed to contain, remove and decontaminate all stages of mercury spill clean-up.
- Provides a quick, effective and safe method of handling all sizes of mercury spills in labs, manufacturing facilities and anywhere mercury spills may occur.
- Removes mercury from work surfaces, including bench tops, floors and hard-to-reach areas such as cracks and crevices.
- Absorbs visible mercury while suppressing the hazardous vapors.
- Easy to use with step by step directions.
- Sturdy, easily recognized, re-usable container with easy entry screw-off top.
- Transforms mercury into a zinc amalgam which is land-fill disposable.
