

Beyond Green Cleaning

4400-005, 4401-005, 4401-055
Ammonia Eater™

Description

- Neutralizes Ammonia, Anhydrous Ammonia and Ammonium Hydroxide into safe organic salts.
- Safe to use and store, non-hazardous and biodegradable.
- pH indicators eliminate need for strips or meters.
- Has a one-to-one neutralization ratio or less.
- Variety of uses and applications.
- Neutralizes vapors and reduces odors.
- Eliminates 100% of disposal costs.

Safety Spill Kit

Item # 4400-005

Technical Information

Usage	Dilution Ratio	RTU
Physical Properties	Appearance	Liquid
	Color	Blue
	Fragrance	None
	pH	7
	Shelf Life	Minimum 1 Year
Primary Packaging	4401-005	(1) 5 gal./18.9 L
	4401-055	(1) 55 gal./208 L

Advantages

The U. S. Occupational Safety and Health Administration (OSHA) has set a 15-minute exposure limit for gaseous ammonia of 35 ppm by volume in the environmental air and an 8-hour exposure limit of 25 ppm by volume.

Exposure to very high concentrations of gaseous ammonia can result in lung damage and death.

Although ammonia is regulated in the United States as a non-flammable gas, it still meets the definition of a material that is toxic by inhalation and requires a hazardous safety permit.

Application

Wear and use all protective equipment contained in kit at all times before, during and after spill clean-up. Atomize Ammonia Eater™ into the air surrounding the spill to neutralize any vapors and reduce initial odors with spray apparatus. Gently pour and/or spray the Ammonia Eater™ working from the outside of the spill inward. Ammonia Eater™ will change color in the presence of ammonia. It will reverse the color change when the solution is neutralized.
