

Beyond Green Cleaning

2002-005, 2001-005, 2001-055
Ultimate Acid Eater™

Description

- Eliminates powders, booms, socks, pads and caustics with revolutionary technology.
- Neutralizes hazardous acids in a quick, safe and effective manner.
- Transforms hazardous acids into safe, disposable organic salts without any safety or health concerns.
- Eliminates disposal issues and costs, as well as safety hazards associated with acid spills.
- A one-to-one neutralization ratio or less with a variety of acids.
- So powerful it will even neutralize dangerous acid vapors that pose safety concerns.
- pH color indicators enable users to monitor the neutralization process without pH instruments.
- Easy to apply on vertical surfaces, hard-to-reach areas and permeable surfaces.
- Dries quickly and will not leave any residues or stains.
- Safe to use and store, non-hazardous, non-corrosive, biodegradable and environmentally-safe.

Safety Spill Kit

Item # 2002-005

Technical Information

Usage	Dilution Ratio	RTU
Physical Properties	Appearance	Liquid
	Color	Red
	Fragrance	None
	pH	9
	Flash Point	None
	Phosphate	None
	Shelf Life	Minimum 1 Year
Primary Packaging	2001-005	(1) 5 gal./18.9 L
	2001-055	(1) 55 gal./208 L

Advantages

Being a liquid medium, Ultimate Acid Eater™ offers several advantages over the conventional methods. First, Ultimate Acid Eater™ chemically transforms acids into organic salts and water. Once acid spills are neutralized, they may be disposed of in wastewater drains, eliminating any disposal costs. Second, Ultimate Acid Eater™ may be applied and used in a variety of methods and conditions. It may be atomized to “knock-down” and greatly reduce hazardous acid gas vapors, poured onto spills, sprayed in hard-to-reach areas and vertical surfaces as well as being used on acidic soil and water. It also may be used in windy and wet conditions where conventional methods would be difficult, if not impossible, to use.

Application

Atomize Ultimate Acid Eater™ into the air surrounding spill to neutralize any vapors and reduce initial odors with spray apparatus. Gently pour and/or spray the Ultimate Acid Eater™ working from the outside of the spill inward. Ultimate Acid Eater™ will change colors in the presence of acid. It will reverse the color change when the solution is neutralized. Wipe, mop or allow the spill to air dry. Rinse personal protective equipment with plenty of water to remove any chemical residues before re-using.

Acid	Acid %	Acid Amount (oz.)	Ultimate Acid Eater (oz.)
Hydrochloric	40	32	24
Sulfuric	50	32	32
Phosphoric	40	32	32
Acetic	40	32	24
Nitric	40	32	32
